*HOMEOWNER'S  
ELECTRICAL  
PROTECTION PLAN*

## The +5 Homeowner's Electrical Protection Plan is available exclusively through Union Electrical Contractors

It's simple. Buy a new home wired by an area Union Electrical Contractor - whose employee electricians belong to IBEW Local 34 - and your wiring will automatically be protected for an extra five years beyond the basic builder's one-year warranty.

Local 34 and the National Electrical Contractors Association (NECA) working together, make sure that your new home is electrically-safe for a full five extra years through their innovative +5 Homeowner's Electrical Protection Plan.

This program covers the original owner for work done by IBEW electricians employees by Union Contractors on newly-built homes...in the unlikely event that electrical problems should develop during the five additional years following the builder's one-year warranty. The +5 Plan is provided at absolutely no additional expense to the homeowner. There are no strings attached.

Give your Home five extra years of no-cost electrical protection. The Plus Five plan is administered in the Central Illinois office of NECA.
