

The Better Built® Network of contractors and construction professionals provides a unique service to our customers who are looking to complete their project with the utmost professionalism and highest quality in the construction industry. The nearly 8,000 union construction professionals and over 300 partner contractors and suppliers that make up the Better Built Network take great pride in building the infrastructure and establishments that make central Illinois a great place to live and work and it shows.

Each contractor that is part of the Network provides our customers the highest quality project at the most competitive price. Additionally, through our training and innovation, we offer the best construction experience possible.

What makes us the best?

- Our contractors are industry qualified, bonded, and insured. They also understand the success of a project requires it being completed on time and within budget, as well as the level of quality our customers demand.
- Training is the trademark of quality. Our contractors as well as construction professionals spend years honing their skills through education, training and degrees in business, engineering, management, architecture and other construction related areas. Their extensive training shows in the quality of the work and the services they provide.
- A safe and healthy worksite promotes better quality. The Better Built Network takes safety on the job very serious with continuing education and training.
- Value added and excellent labor-management relationships ensure constant adaption to, and training for, cutting edge industry techniques that provide the best product to the end user.

The Better Built® Network welcomes the opportunity to work with you, the construction client, on your next project. Please use this directory or visit our website at www.betterbuiltci.com to work with contractors who are the best in the industry and will provide you an effort-less construction experience.

GPCSA
GREATER PEORIA
 CONTRACTORS & SUPPLIERS ASSOCIATION

The **Greater Peoria Contractors and Suppliers Association (GPCSA)** is a comprehensive construction industry association representing a diverse membership, including general contractors, subcontractors, and suppliers. Our members are united by their commitment to skill, integrity, and responsibility and are equipped to handle projects ranging from small home remodels to large-scale commercial buildings and industrial facilities.

What We Offer

GPCSA provides its member contractors and suppliers with a wide range of programs and services designed to support their success in the industry. These include:

- **Labor Relations and Contract Negotiations:** Expert guidance and support.
- **Educational Opportunities:** Workshops, training sessions, and certifications.
- **Online Plan Room:** Access to new projects, updates, and addendums.
- **Networking Opportunities:** Events to connect with industry professionals.

We stay ahead of industry trends by incorporating cutting-edge technology and procedures to better serve our members. Through ongoing training and upgrades, we ensure our members have the tools and knowledge to thrive in a constantly evolving field.

Commitment to Excellence

Our members understand the value of collaboration and actively contribute to the success of GPCSA by serving on committees that focus on key areas, including:

- Education/Safety
- Diversity and Inclusion
- Labor Relations
- Legislative Advocacy
- Marketing, Membership, and Programs
- Plan Room and Technology

These committees foster an environment of opportunity and innovation, ensuring that GPCSA remains at the forefront of the construction industry.

Part of the Better Built® Network

At GPCSA, we work hand-in-hand with construction experts as a vital part of the Better Built® Network, dedicated to helping our members deliver superior-quality projects at competitive prices.

Our association is built on a foundation of professionalism, experience, and adaptability, ensuring that we continue to lead an ever-changing industry.

For more information, visit our website at www.gpcsa.org, call us at 309-692-5710, or visit our office.

Let's build something better together!

NECA - National Electrical Contractors Association

Dear Electrical Construction User:

Please allow me to introduce the Quality Connection. It is composed of the Central Illinois Chapter, NECA (National Electrical Contractors Association) and Local 34, IBEW (International Brotherhood of Electrical Workers). These two parties have combined to become true partners and leaders in the electrical construction industry in central Illinois. To the Quality Connection, the words Quality, Commitment and Customer Service are not just "buzz" words. Instead, they are synonymous with the types of service provided for the homes, businesses and factories in the area.

Lucas D. Myrna
NECA
Executive Manager

Most people probably cannot determine the quality of an electrical installation. As long as the light switch turns on the overhead light, most customers are satisfied. But to central Illinois' union electrical contractors, it means the customer can feel completely safe from faulty wiring or incorrect installations. These contractors employ members of IBEW Local 34 to perform their electrical work. Local 34 electricians are among the best educated and trained in the state. Each has graduated from a joint apprenticeship training program sponsored by NECA and the IBEW. This apprenticeship program is the most advanced of any electrical training program in the nation. It includes 8,000 hours of on-the-job training and more than 750 hours of intense classroom instruction.

As with all successful businesses, our contractors realize the sure way to a profitable bottom line is by satisfying their customers' needs. Central Illinois' union electrical contractors are committed to providing their customers with the most efficient methods of installation. Through the use of modern contracting methods and the employment of electrician members of IBEW Local 34, they are assured that their electrical products and services are delivered in the highest professional manner to their valued customers.

When determining your electrical construction needs, look no further than the Quality Connection, NECA and the IBEW, working together as partners to provide your customer with the best electrical construction services. *Sincerely, Lucas D. Myrna Executive Manager*

Tim Sprout
IBEW Local 34
Business Manager

As with all successful businesses, our contractors realize the sure way to a profitable bottom line is by satisfying their customers' needs. Central Illinois' union electrical contractors are committed to providing their customers with the most efficient meth-

ods of installation. Through the use of modern contracting methods and the employment of electrician members of IBEW Local 34, they are assured that their electrical products and services are delivered in the highest professional manner to their valued customers.

When determining your electrical construction needs, look no further than the Quality Connection, NECA and the IBEW, working together as partners to provide your customer with the best electrical construction services. *Sincerely, Lucas D. Myrna Executive Manager*

Executive Director
Steve Aupperle

The Builders Association of Tazewell County was organized for the benefit of builders, contractors and those engaged in allied industries in all of Tazewell and Fulton counties.

Its goals are:

- To develop and maintain within the industry, high and professional standards
- To improve relationships between construction labor and management
- To cooperate with other trade organizations
- To mediate controversies between the trades and BAT members
- To negotiate with labor unions in respect to new wage contracts
- To promote the interests of its members

Great Plains Laborers' District Council Laborers-Employers Cooperation and Education Trust

The Great Plains Laborers District Council - Laborers-Employers Cooperation and Education Trust (**LECET**) is a partnership between 7,500 members of the Laborers International Union of North America (LIUNA) and its affiliated construction and environmental contractors throughout a 32-county area in North Central Illinois. This partnership provides a permanent alliance between labor and management by promoting the unionized construction industry.

LECET's mission is simple but potent - market expansion for the unionized construction industry. **LECET** accomplishes this mission through many innovative programs and initiatives, including:

Project and job tracking through the Dodge Dataline, the Illinois State Department of Transportation information and Capital Development Board Bulletins.

Public relations and marketing - through an aggressive marketing and public relations campaign, **LECET** promotes its affiliated contractors throughout the North Central Illinois jurisdiction - thereby promoting the use of affiliated contractors in the building and construction of local projects.

Relationship building - **LECET** has on-going relationships with area Chambers of Commerce, Economic Development Councils, architects, engineers and developers. Developers from around the country look to **LECET's** expertise when planning their next project. These valuable relationships facilitate a positive working relationship in the community.

LECET's affiliated contractors are the best in the business. With our qualified and dedicated people on the job, the project will be on time and within budget on every project. For more information on the **LECET** program call 309-692-9878.

Central Illinois Mason Contractors Association

The Egyptian Pyramids, the Colosseum in Rome, India's Taj Mahal, the Great Wall of China, Jefferson's Monticello – some of the world's most significant architectural achievements have been built with masonry. Throughout civilization, architects, engineers and builders have chosen masonry for its beauty, versatility and durability. Masonry is resistant to fire, earthquake and sound. Artistic and lasting, masonry structures can withstand the test of time!

The companies of the Central Illinois Mason Contractors Association partner with Brick and Allied Craftworkers (BAC) Local 6 and Local 8 to construct commercial, industrial, institutional, and residential structures throughout our community. The most frequently used materials by masons are clay bricks and concrete blocks. For more than 6,000 years, brick has remained man's oldest manufactured product.

The level of complexity involved in masonry varies from laying a simple masonry wall to installing an ornate exterior or high-rise building. Whether CIMCA members are working with brick, block, tile, terra-cotta, or stone, the skill and craftsmanship of a BAC mason cannot be equaled.

CIMCA also represents ceramic tile, marble, mosaic and terrazzo masons. These speciality workers bring a unique old world skill to construction today.

CIMCA contractors jurisdiction includes all or part of these Illinois counties: Adams, Brown, Cass, Champaign, Christian, Clark, Coles, Crawford, Cumberland, DeWitt, Douglas, Edgar, Effingham, Ford, Fulton, Green, Hancock, Henderson, Jasper, Knox, Logan, Marshall, Mason,

Macoupin, Mason, McDonough, McLean, Menard, Morgan, Moultrie, Peoria, Piatt, Pike, Sangamon, Schuyler, Scott, Shelby, Tazewell, Vermillion, Warren and Woodford.

After 6,000 years, masonry is still used daily in modern construction. As you look around at office buildings, schools, houses, government facilities, retail malls, patios, fireplaces and so on, you will notice multiple forms of masonry making your property mean more. To build with the best and enhance your next project's longevity plus aesthetics, contact CIMCA at 309-692-2531 or email cimcaoffice@gmail.com

Central Illinois Chapter of SMACNA

For over 65 years, the Central Illinois Chapter of Sheet Metal Air Conditioning Contractors National Association (CIL SMACNA) has been an exceptional organization of sheet metal contractors. SMACNA develops outstanding organizational processes, mechanisms, dynamics, and standards to stimulate change and facilitate continuous improvement for our contractors. The purpose of SMACNA is to create a competitive advantage for delivery to SMACNA member customers.

What does a SMACNA contractor stand for?

Integrity through open and honest dealings with clients and others in construction.

Technical Leadership in the HVAC Industry by using BIM (Building Information Modeling), LEED, green construction, and building sustainability; being an Energy Star Partner efficiency expert; setting industry standards; and impacting governmental/legislative initiatives to benefit our construction industry.

Collaborative Relationships with our Sheet Metal Workers International Association (SMWIA) Labor Partners for the betterment of all consumers.

Superior Service assures accessibility; builds valued relationships with our customers; recognizes and meets client requirements; and utilizes technological advancements through applied expertise.

Best Practices featuring shared experiences; comprehensive communications; sector networks; and growth opportunities.

Continuous Innovation driving change and improvement by creation and implementation of new products plus services for all customers.

SMACNA Contractors – the known HVAC experts – are the companies of choice with the competitive advantage of SMWIA partnerships to form the definitive competitive advantage in the market place.

You'll know where you stand when you put a SMACNA contractor to work for you! Contact CIL SMACNA at 309.369-0869.

Mid-Illini Mechanical Contractors Association

We can deliver what you want! The Mid-Illini Mechanical Contractors Association (MIMCA) and the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the United States and Canada (UA) are the team that delivers.

You want problem-free jobs! When you make us part of your team, your projects will proceed in a timely, cost-effective, and safe manner. MIMCA and the UA are committed to a drug-free workplace - an essential element in effective project delivery.

You want cooperation up and down the line! MIMCA contractors take your needs seriously and UA mechanics meet specifications meticulously. Effective communication is the foundation of this team.

You want safety! MIMCA and the UA offer safety training for journeymen and apprentices in compliance with OSHA standards. Additional safety programs train managers of MIMCA contractors. This translates into a safer workplace on safer job sites - a positive benefit for all.

You want cost-effective projects! Today's mechanical systems bring buildings to life. These systems encompass plumbing, heating, air conditioning ventilating, indoor air quality, refrigerating, power and process piping, sprinkler piping, temperature control piping, boilers, stokers, oil and gas burning equipment, pneumatic and hydraulic piping, insulation, testing and balancing, commercial and residential service, maintenance and energy management.

You want top-notch technicians! As mechanical work becomes more sophisticated, so must the quality of training given to the workers who install and maintain these systems. In all areas requiring work in this increasingly complex industry - ranging from public utility water service to power plants, high technology clean rooms, health care facilities, environmental remediation with valve repairs, and to refrigeration removal - your MIMCA/UA team provides successful completion and returns full value for your financial investment.

We are ready, willing and available! Safer, efficient, and timely completion of the highly technical work by union mechanical constructors pays dividends. First concerns focus on the public who demand nothing but the best - a MIMCA/UA partnered project. Please contact MIMCA at 309.369-0869, UA Plumbers Local Union 63 at 309.699.3570 or UA Steamfitters Local Union 353 at 309.633.1353.

Carpenters Local 237

Quality of craftsmanship throughout recorded history. Carpenters roots trace back to before Biblical times. Someone had to figure out how to build a structure when humans left the cave. Fortunately in the west central region of Illinois, for more than a century, the United Brotherhood of Carpenters and Joiners of America Local 237 have provided professional construction service as the members have created the 'look' of west central Illinois, as well as the panoramic skyline of Peoria and East Peoria along the Illinois River.

The professionals of Local 237 deliver value to the contractors and construction customers thanks to the outstanding Joint Apprentice Training Center (JATC). The Peoria-based college of carpenter knowledge serves the

members, the signatory contractors and the construction customers of central Illinois well. Both the numerous aspects of the trade and advancements in technology require extensive knowledge in both geometry and algebra blended with exceptional tactile skills.

Knowing where and how to 'cut' and 'assemble' and then being able to cut and assemble are two separate skills. The signatory contractors and the construction customers can rely on the members of Local 237, who possess both the knowledge of *how* and the skills of *where and when* as they work with the latest processes, procedures and materials, to provide value.

Brandon Stetzler, training coordinator for the JATC, says, "We teach proper techniques and manufacturers' standards. And we don't stop at the apprentices. We also offer the journeymen an opportunity to come in for additional training and to upgrade their skills."

The Carpenters International union spends \$100+ million annually on training instructors, apprentices and journeymen at its 250 training sites around the United States. Structured on-site apprenticeship with an emphasis and focus of hands-on experience represents but one facet of training. Combined with classroom instruction, the comprehensive federal Bureau of Apprenticeship and Training certified apprenticeship program provides a working knowledge of the trade.

Architects and engineers now put certification of installers and others into their requirements. Thanks to the broad spectrum of training at the JATC, members of Local 237 bring various certifications to the job site. According to Stetzler certification is emerging and will in the future go hand in hand with apprenticeship classes as more and more con-

tractors will require employees to earn the specific certifications.

Stetzler offers an example when he says, "The members take classes and then we test them so they earn certification in hardwood, tile, carpet and soft vinyl," adds, "the flooring manufacturers want that guarantee their products will be installed properly. We have also added another training facility to continue to serve new and existing members."

Local 237 members deliver the highest quality flooring, thanks to the Carpenter's INSTALL flooring program, certified by the International Standards and Training Alliance and endorsed by every major manufacturer. Thanks to this training, Local 237 members offer the only

certified installation of flooring products in the west central Illinois region.

The JATC also teaches Local 237 members in the latest new technology and techniques such as insulated concrete, which has become quite popular as a building material in residential construction.

Health and safety also play a pivotal role as the members of Local 237 strive to achieve a safe work place.

Apprentices and journeymen now need the OSHA class to get on job sites, and the JATC offers the classes for members. In addition to the personal OSHA 10-hour class, the instructors also teach proper processes of safety and the regulations including confined space, scaffolds, specialized materials, etc.

As a trade with numerous specializations—carpenters and joiners, millwrights, pile drivers, residential carpenters, interior systems, lathers and dry wall installers, cabinetmakers and millworkers and floor layers—the members of Local 237 deliver the value contractors and customers seek. No matter the specialization. The JATC has prepared and trained members for every known situation. In addition to years of field experience, the instructors regularly attend training themselves.

Done right the first time. The best value comes from experienced folks applying their acquired knowledge and skills. The contractors and customers know the best choice in west central Illinois, for their construction needs always includes the talent and skills of the members of Carpenters Local 237.

For more information call (309) 698.1830 or visit: www.carpenters237.com.

IBEW Local 34/NECA

Technology and talent marches ever onward. While Thomas Edison might have helped ‘electrify’ the United States, the men and women of the International Brotherhood of Electrical Workers (IBEW) Local 34 and the signatory contractors of the Central Illinois Chapter of the National Electrical Contractors Association (NECA) help turn on the lights and clearly keep the power pushing in west central Illinois.

As renewable energy moves into the mainstream, thanks to a comprehensive and effective training program, “which all the contractors pay for,” says Manager Lucas Myrna of the local NECA, the members of IBEW Local 34 (17 west central Illinois counties) travel on the high-speed highway of tomorrow.

With emerging markets, new products, new tools and rapid advancements in technology, the need for up-to-the-minute awareness looms large. “We have a training director here, Matthew Anderson, who takes training to a new level,” Myrna says. “He’s also established a relationship with the local community colleges.”

While earning federal Bureau of Apprenticeship and Training (BAT) certification, Local 34 apprentices earn 36 credit hours of community college credit applicable to an Associate of Science Degree.

All apprentices undergo classroom instruction in the core subjects and skills in the first three years—electrical theory, pipe bending, wire pulling etc. Apprentices in the Telecommunications and Residential program spend three years, which includes 456 classroom hours plus 4,200+ hours hands-on to earn BAT certification.

Those who go on to complete the five-year Inside Electrician certification spend the fourth and fifth years specializing in such aspects as motors, industrial maintenance and repair, troubleshooting, building automation, etc., as they must complete a minimum of 760 hours of classroom (152 annually) instruction plus 7,200+ hours spent working hands-on at the job site.

Thanks to the efforts of the JATC, Local 34 members continue their education throughout their career so they develop skill in all aspects of the trade. Just a few recent examples of classes offered to members of Local 34 include: instrumentation, solar power, motor control, programmable controllers, fiber optics and more.

“The electrical industry is changing every day to meet the demands of our new technology,” says Business Manager Tim Sprout of IBEW Local 34. “Our customers require the IBEW and its contractors to employ the best trained electricians in the industry.”

The National NECA, plays the prominent role, “with writing the codes and setting the standards for our industry,” Myrna says. “Then we train the members to those standards,” adding, “that’s why we’re so far ahead of the competition and what sets us apart is the members’ knowledge skill level.”

Every three years NECA performs a complete code update and the new standards became in force in February, 2023. “That code book becomes our bible,” Myrna says, “our members know it’s important.”

When the new codes become effective the combined commitment of the signatory contractors and the members of Local 34 will put these latest codes into practice. “We’ll have between five and

eight hundred members here,” Myrna says, “as they learn about the new codes.” He adds his appreciation for the commitment by Local 34 when he says, “The union buys in to the training because even though the members attend the session, they don’t get paid.”

Technology will continue to push the professional construction industry through rapid changes. Coupled with the current emphasis for energy efficiency and “green” products and processes, training remains the key component which helps Local 34 members create value on a consistent basis for both the contractors and customers.

These specialized skills allow both Local 34 and the signatory contractors in the local chapter of NECA maintain a strong commitment to offer seamless customer service because the members of Local 34 operate as professionals who have completed a rigorous, structured education.

The Local 34 jurisdiction covers west central Illinois and the days of simply bending pipe and pulling wire have disappeared. With both technology changes and customer needs expanding the contractors know what they need so they play a major role in the classes offered at the JATC. Local 34 and NECA collaborate on the JATC curriculum and according to Local 34 Training Director Matt Anderson, “There is a current push for LEED building.”

The signatory contractors and Local 34 members can work on any call from residential, to high voltage, to specialized welding (aluminum), to nuclear power plants to the new LEED standards. Manufacturers visit the JATC and conduct training when they introduce new products or materials. This effort ensures the members of Local 34 acquire and develop the skills necessary to maintain the highest standards of quality and the signatory contractors deliver the promised rewards to the customers.

The emphasis on safety helps create a profitable environment. Many job sites now require OSHA certification of all the workers. “We teach everyone the OSHA 10-hour class, CPR and First Aid,” says Anderson.

The focus for 2025 will continue to be education. “Without trained personnel, contractors can’t do their job,” Myrna says. The Local 34 members realize they can learn something which “enhances their skills and makes them more valuable.”

The ongoing emphasis on training assures the contractors and customers who seek the highest value can rely on the members of IBEW Local 34 and signatory contractors to deliver that value. “In order for IBEW Local 34 and NECA to be the best trained, electricians continue with training throughout their careers,” states Sprout. “IBEW apprentices learn from journeymen both on the job and as instructors in the classroom to install electrical systems right the first time.”

The skill level of Local 34 members allows NECA and Local 34 to offer the *+Five Program*, which gives a homeowner an additional five years of warranty on the wiring on any new home construction.

For more information call IBEW Local 34 at (309) 673.3691 or visit, www.ibew34.org, or call the Central Illinois Chapter of NECA at (309) 673.6900.

*HERE'S NO-COST
HOMEOWNER'S
PROTECTION YOU
CAN LIVE WITH:*

+5

*HOMEOWNER'S
ELECTRICAL
PROTECTION PLAN*

The +5 Homeowner's Electrical Protection Plan is available exclusively through Union Electrical Contractors

It's simple. Buy a new home wired by an area Union Electrical Contractor - whose employee electricians belong to IBEW Local 34 - and your wiring will automatically be protected for an extra five years beyond the basic builder's one-year warranty.

Local 34 and the National Electrical Contractors Association (NECA) working together, make sure that your new home is electrically-safe for a full five extra years through their innovative +5 Homeowner's Electrical Protection Plan.

This program covers the original owner for work done by IBEW electricians employees by Union Contractors on newly-built homes...in the unlikely event that electrical problems should develop during the five additional years following the builder's one-year warranty. The +5 Plan is provided at absolutely no additional expense to the homeowner. There are no strings attached.

Give your Home five extra years of no-cost electrical protection. The Plus Five plan is administered in the Central Illinois office of NECA.

Heat and Frost Insulators Local 17

For 125 years, the vital work of the International Association of Heat and Frost Insulators and Allied Workers has saved energy, saved money, and saved lives. With a proud history dating back to the 1800's, the greater Illinois and Indiana Heat & Frost Insulators have produced best-in-the-business professionals under the cutting-edge training and guidance of principal instruction.

Our success is rooted in a key understanding of just how important our work is to society. Our combination of on-the-job training and classroom instruction is unparalleled in the industry. Each professional spends a minimum of four years in the classroom studying math, blueprint interpretation, application techniques, pattern layout, workplace safety, and supervision. Mentoring and teaching is also integral to what we do: our members train an average of 125 journeymen each year on the latest techniques and standards.

Along with their partner mechanical, insulation, and firestopping contractors, union professionals are meeting the growing demands of the modern world and helping their clients save both energy and money. Industrial, commercial, residential, and government users all demand new levels of energy efficiency, state-of-the-art fire safety, and pollution-free environments in which to live and work. The men and women of the International Association of Heat and Frost Insulators are on the front line exceeding these expectations and meeting the challenges of building a safer, healthier, greener, and more efficient world.

“IMPACT is an unmatched cooperative effort between the Iron Workers and its contractors. It brings the best contractors, working and learning hand-in-hand with the locals and top Iron Workers management. It is a must for both contractors and the Iron Workers to keep both parties pushing in the same direction.”

- Brad Churchill, CEO, US Erectors, Inc.

**1750 New York Avenue, Fourth Floor
Washington, DC 20006
Phone: (202) 393-1147
Toll Free: (800) 545-4921**

IMPACT is a partnership designed to:

- Provide a forum for Ironworkers and contractors to address mutual concerns
- Encourage reasonable balanced solutions
- Provide the region with a national network of IMPACT Regional Advisory Boards
- Promote discussion of issues affecting the industry as a whole
- Enable the creation of effective strategies for resolving concerns
- Create opportunities for the ironworking industry
- Expand job opportunities through progressive and innovative cooperative programs

IMPACT is overseen by:

- A board of trustees composed of an equal number of labor and management representatives

IMPACT members are:

- Ironworker Locals
- Signatory Contractors - who are committed to increasing the competitiveness and market share of the union ironworking industry

IMPACT is funded in equal parts by:

- The contributions of its labor and management members who have elected to include IMPACT in their collective bargaining agreements

IMPACT is a:

- 501c(5) nonprofit and is classified as a 302c(9) organization under the Labor Relations Act

OPERATING ENGINEERS LOCAL 649

Operating Engineers learn the skill set necessary to move mountains of earth, steel and any other material

that your project utilizes. For those who require exacting standards, the “Engineers” operate with the accuracy of surgical precision.

The total commitment to professional preparation and training provides the “Engineers” the excellence expected of professionals.

A combination of classroom

instruction, guided mentoring and in-the-field application creates the climate of higher education blended with practical application.

When contractors and customers need human hands coupled with the acquired expertise to move the earth with calculated mathematical precision, call on the members of the International Union of Operating Engineers Local 649. For 90+ years they have provided the very best professional skills available. Period.

The 127-acre Local 649 training site maintains a regiment of the latest in equipment and technology. A full-time Apprentice Coordinator joins with seven part-time instructors to make a notable nine-member team who earn the recognition of their peers. The International union recognized and honored the local training efforts by choosing to place Local 649 on its website as the very first spotlight training center.

Contractors, customers and clients can count on the members of Local 649 who spend four years as an apprentice learning the required skills to operate heavy equipment in construction.

And the 144 annual classroom hours coupled with a total of 6,000 hours of on-the-job training prepares them to deliver professional results whether they

move dirt, lift and position materials with a crane, operate industrial machinery or serve as skilled mechanics.

“Engineers” arrive on site first. Those who seek the proper elevations to begin the process of new construction know they can rely on the skills of Local 649, whose craft requires the precision to place all other crafts that follow in position to produce professional results.

The members of Local 649 translate work ethic and attitude into the utmost attention to detail, safety and customer service.

The extensive training regimen ensures apprentices get to the job site ready. And current experienced members come to the training center to upgrade their skills and learn new equipment.

Safety saves money. A safe work site helps create a productive work site. And reduces workers’ compensation costs. The general president of the Operating Engineers has set the goal for every member who goes to work to go home that night to their families. Local 649 teaches and maintains a focus on safety. Members never do something unsafe.

The safety skills of Local 649 garner attention and acclaim as fire departments in central Illinois use the training site to conduct trench rescue training.

In addition to technical skills and hands-on expertise, the training center provides all apprentices a complete course in Union Heritage, in order to ensure the members of Local 649 understand the importance of the pride “Engineers” take in the trade and their skills. Plus to understand how the past helped shape today guarantees Local 649 will continue its legacy of excellence.

A dedication to ongoing training, safety and productivity ensures when developers and owners search for the highest quality and value they know the members of

Local 649 will move the earth to satisfy their needs.

Plumbers & Pipefitters Local Union No. 25

Throughout its 125-year history, Plumbers and Pipefitters Local 25 has been building a strong community through the professional and charitable contributions of its members.

Local 25, located in Rock Island, serves over 1,750 trained journeymen and apprentices in Rock Island, Warren, Whiteside, Hancock, Mercer, Schuyler, Adams, Brown, Carroll, Henderson, Henry, Knox, Jo Daviess, and Lee Counties in Illinois. Local 25 also serves Jackson, Clinton, Scott, Cedar, and Muscatine Counties in Iowa. Local 25 also represents pipeline distribution jurisdiction in the States of Iowa and Missouri. We have satellite offices in Galesburg, Sterling/Rock Falls, and Quincy. The Plumbers and Pipefitters Local Union 25 is a member of the United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry of the United States and Canada.

34,000 square foot Training Center includes:

- Three-story mock-up plumbing house
- Fabrication shop with (30) weld booths
- HVACR shop
- (7) Classrooms plus computer lab

Certifications/Licenses for:

- Welding
- Plumbing
- Medical Gas
- Rigging/signaling
- Backflow

In cooperation with the Eastern Iowa and Western Illinois Mechanical Contractors Association, Plumbers & Pipefitters Local Union 25 has met the challenge of providing skilled, professional craftsmen. This is the result of comprehensive training programs supported by the United Association and the contractors to meet the needs of an ever-changing industry. The dedication of past and present members and contractors have paved the way for us to become the most highly trained, technologically advanced professionals in the industry for today and tomorrow.

With the Mechanical Contractors Association and Local 25 involved in a project, labor and management work as a team to give the customer the best possible service. We establish a working relationship with each project's general contractor, architect, engineers, plant managers, and owners. Studies show that customers DO get the best service with union labor. Productivity is higher, time and material costs are lower, and results are consistently more satisfactory.

PLUMBERS LOCAL 63

Water. The building block of life. Without fresh water we would all waste away. Without effective sewage and water treatment systems the supply would dwindle and stop development. The members of United Association (UA) Plumbers Local 63 perform professional installation, repair and maintenance of water delivery systems, piping systems, hydronic floor heating and solar panels.

With a concentration of world class medical care and research facilities located in Peoria, many members have also completed certification for the highly specialized Med-Gas installation and maintenance. "Paying attention to details is critical for the members who work in that field," says Training Coordinator for Local 63 Tommy Spears.

Whether commercial, industrial or residential, customers continually compliment the quality of work provided by the superior skills displayed by the members of Local 63. Translation: VALUE for the signatory contractor and customer.

Coupled with a sense of service the members of Local 63 produce professional results which brings customers coming back. When planning a development or construction project signatory contractors and customers remain confident the extensive training program maintained by Local 63 assures the members both utilize the latest techniques and processes as they deliver consistent quality.

"We work with the signatory contractors to ensure we teach the skills necessary for our members to understand and perform the latest techniques and processes," says Business Manager Dave Maroon Jr. of Local 63. Spears says, "We teach the trade the way it has been done for the last hundred years mixed with all the new techniques, materials and processes."

Apprentices undergo a rigorous five-year program designed to provide the combination of 800 hours of classroom instruction enhanced with hands-on experience of real world applications. "The apprenticeship program is designed to expose them to all facets of the trade," Maroon says. All apprentices also complete 8,500 hours on the job.

Illinois maintains a strict Plumbing Code and as a professional career all members of Local 63 who have

completed an apprenticeship hold a state license and they earn annual continuing education credits in order to maintain their license. Training programs span the spectrum of the trade ranging from basic first-year apprentice classes to advanced classes for experienced members. The emphasis on strict adherence to the Illinois Plumbing Code has earned Local 63 the honor of UA certification testing for its members.

Safety plays a pivotal part in both the training regimen and daily work activities of the members of Local 63. All apprentices must complete the OSHA 10-hour class and the school conducts the OSHA 30-hour class for members who seek the certification. The safety classes, "Protect the members and help the contractors keep the cost of Worker's Comp down," Maroon says. Spears adds, "We don't want to see anyone get hurt. Contractors count on us to do our job the right way and that includes safety."

The emergence of "Green" technology and materials has pushed professional construction in new directions and the Local 63 training curriculum embraces the latest equipment, materials and processes. "Technology has swept through our industry as a whole and if we want to keep pace with the times we have to move with it and offer the highest quality and latest training available," Maroon says. Spears adds, "We train our members to be able to handle any task asked

of by our contractors and successfully complete any piping arrangement drawn by an engineer."

To ensure the highest quality training Local 63 sends its instructors to the UA annual summer courses offered at Washtenaw College in Michigan. Contractors and customers should note in just the past few years the quality of instruction at Local 63 has produced high quality apprentices who have proven their expertise at local and national competitions.

The pursuit of professionalism by members of Local 63 ensures every project they work on reflects the quality of construction which will ensure a satisfied customer. Quality exceeds customer expectations. Spears says, "We take pride in performing our work as good as it can be done."

Customers in West Central Illinois seeking to build or renovate a structure, industrial plant, school, hospital, apartment complex, retirement home, medical facility, single family home, or any water delivery system project can call on the members of UA Plumbers Local 63 and the signatory contractors. The customers will enjoy the confidence the plumbers will provide the highest quality skills as they deliver value.

STEAMFITTERS LOCAL 353

When you first walk in the doors of the Steamfitters Local 353 training site, you feel the rich history and its commitment to expert training of its membership. The hall is lined with pictures of those individuals who have dedicated themselves to training the best workforce in the industry. Moving down the hall, the classrooms contain the latest and greatest technology to train the workforce of Local 353. In all the over 26,000 sq. ft. facility, located at 6408 W Development Drive in Peoria, contains classrooms and a shop area that rivals other training sites across the country. Built in 2001, at a significant cost, the membership knew that in order to train its workers, it needed a state-of-the-art facility that could adjust to the latest trends and technology.

The facility spares no expense when it comes to training. Each year, Steamfitters Local 353 members contribute \$800,000 annually to train their workforce. The training facility is completely funded privately, with no government dollars and is overseen by a council made

up of three management and three labor representatives. The cooperation brings together the experience of the contractors and the membership to serve the needs of its many customers. "We make sure that our training is up to industry standards and procedures," says Apprenticeship Coordinator Mike Howard.

When an apprentice is accepted into the program, they are required to train for five years, with 8,500 hours of on the job training and 1,200 hours of classroom training. All Local 353 apprentices undergo a standard curriculum which includes classes in math, science, drafting, hydronic heating, basic air conditioning, welding, safety and a number of certification classes. The rigorous and demanding schedule creates many opportunities for the apprentice. Also, journey-persons have the opportunity for on-going education throughout their career. "First and foremost, we want our workers to be well trained and we want them to be safe on the job. All apprentices complete the OSHA 10-hour class and the members who serve as a foreman or superintendent must complete the OSHA 30-hour class," adds Howard. "We are a Department of Labor – Bureau of Apprenticeship and Training certified program. I am also a certified official for Veterans for the GI Bill."

Howard is proud of the hard work Local 353 puts into training for the future. "We are committed to training the best in the industry," he says. "We are constantly upgrading our curriculum and training to serve the needs of our customers." Howard's office is lined with training certificates that shows he has the training necessary to train the future generation of Steamfitters. "Our international (U.A.) spends over \$200 million each year on training and class planning." Howard is also required to upgrade his skills annually at the national training site in Ann Arbor, Michigan. Howard also adds that all the instructors with Local 353 are required to be trained and certified in their respective discipline. Howard adds, "Most of the classes we offer require the instructor to have attended the training required to be certified to teach the

class."

The United Association (U.A.), the umbrella organization for Steamfitters and other pipe trades in both the United States and Canada, has recognized Local 353 and awarded the school the honor of serving as a UA certification center. This distinction allows members of Local 353 and other Locals to complete their testing carry the specialized card which puts them into the realm of highly-qualified workers. "We have the capability of offering certification in heavy rigging, welding procedures, HVACR, valve technology and more," says Howard.

Local 353 also prides itself on responding to both the end user and signatory contractor's needs. As an example, a nuclear power plant requires specialized welders so every worker must be certified. "We can offer almost 60 different types of welding certification," Howard says, "so the member will be qualified to work on the project." The welder certified at Local 353 has demonstrated the skills and help form an elite group of specialized professional construction employees.

Bottom Line: Steamfitters Local 353 enjoys success in the industry because they represent a concerted effort to maintain outstanding interaction with its signatory contractors and customers. "We have always worked in concert with the signatory contractors and the end users in a tri-partite effort to provide the best possible outcome," Howard concludes. "and we will continue to do so."
