This is the result of comprehensive training programs supported by the United Association and the contractors to meet the needs of an ever-changing industry. The dedication of past and present members and contractors have paved the way for us to become the most highly trained, technologically advanced professionals in the industry for today and tomorrow.

With the Mechanical Contractors Association and Local 25 involved in a project, labor and management work as a team to give the customer the best possible service. We establish a working relationship with each project's general contractor, architect, engineers, plant managers, and owners. Studies show that customers DO get the best service with union labor. Productivity is higher, time and material costs are lower, and results are consistently more satisfactory.
